

MUHAMMAD DAWOOD RAFIQUE

DevOps Engineer

Toba Tek Singh, Punjab, Pakistan | mdawoodrafique394@gmail.com | +92-300-1212394 | [linkedin.com/in/dawoodrafique](https://www.linkedin.com/in/dawoodrafique)

SUMMARY

DevOps Engineer with 1+ year of hands-on production experience managing AWS infrastructure, building CI/CD pipelines, and provisioning cloud resources with Terraform, backed by 3+ years of full-stack web development. Skilled at containerizing and deploying applications, automating deployment workflows, and troubleshooting infrastructure issues across Linux, AWS, and Kubernetes environments. Seeking an onsite role to build on remote experience through hands-on, in-person growth.

CORE SKILLS

Cloud & Infrastructure: AWS (EC2, S3, VPC, IAM, RDS, EKS, CloudWatch, Route53, Lambda), Terraform (IaC), Ansible (basic), Docker, Kubernetes, Helm

CI/CD & Automation: GitHub Actions, Jenkins, automated build/deploy pipelines, Infrastructure as Code

Systems & Networking: Linux administration, Apache/Nginx, SSL/TLS, DNS, firewall configuration, Grafana

Development: React.js, Next.js, Node.js, Express, MongoDB, MERN Stack, WordPress, Liferay Portal (7.4)

Scripting & Version Control: Bash, Python, JavaScript, Git, GitHub, GitLab

Monitoring & Support: AWS CloudWatch, Grafana, system performance monitoring, incident troubleshooting

PROFESSIONAL EXPERIENCE

DevOps Engineer | LifeBahn Global, S.L. (Remote)

Jan 2026 – Present

Madrid, Spain (Remote)

- Manage AWS infrastructure (VPC, IAM, RDS, EKS), ensuring secure and scalable environments for production web platforms.
- Build and maintain CI/CD pipelines using GitHub Actions for automated, repeatable deployments.
- Provision and manage cloud resources using Terraform (Infrastructure as Code).
- Create, optimize, and debug Docker images for reliable containerized applications.
- Monitor system performance and resolve infrastructure and deployment issues across environments.

DevOps Engineer | doAZ (Remote)

May 2025 – Dec 2025

Seoul, South Korea (Remote)

- Assisted in setup and management of AWS resources including EC2, EKS, VPC, and Load Balancers.
- Built and tested CI/CD pipelines with GitHub Actions for automated deployments.
- Dockerized applications and deployed them to Kubernetes clusters; wrote and managed Helm charts.
- Supported infrastructure automation with Terraform; monitored server health and logs using AWS CloudWatch.
- Implemented IAM role management and SSL/TLS configuration, collaborating with the team to troubleshoot deployments.

Web Developer | LifeBahn Global, S.L. (Remote)

May 2023 – Dec 2025

Madrid, Spain (Remote)

- Developed and maintained a Liferay 7.4 portal spanning 20+ sub-websites, including custom module development and integrations.
- Built and shipped features using React.js and Next.js for client-facing applications.
- Managed WordPress deployments for e-commerce stores and IB course platforms with online testing and results delivery.
- Deployed and maintained applications on Linux servers, configuring Apache/Nginx, SSL certificates, and firewalls.
- Managed application deployments on Vercel and troubleshoot hosting on GoDaddy shared hosting and AWS.
- Provided ongoing technical support, system monitoring, and backups; coordinated with internal teams to resolve issues.

Web Application Developer | Fiverr (Freelance)

Aug 2020 – Present

Remote

- Delivered full-stack MERN applications and custom WordPress websites to 30+ clients worldwide.
- Built and customized WordPress sites using Elementor, WooCommerce, Divi, and custom themes.
- Deployed websites on cPanel, VPS, and cloud servers; integrated REST APIs, payment gateways, and third-party services.
- Optimized website performance, SEO, and security; managed client communication and requirements gathering.

EDUCATION

BS Computer Science — University of Agriculture Faisalabad (UAF)

2020 – 2024

F.Sc Pre-Engineering — Govt. Graduate College, Toba Tek Singh

2017 – 2019

Languages: English, Urdu, Punjabi
